

## **MEDIPLAST INSTRUCTIONS**

### **Instructions for Mediplast**

1. Pare down the visible wart with a pumice stone, nail file, or razor blade.
2. Apply a square of Mediplast large enough to cover the wart.
3. Next, apply a Band-Aid or duct tape over the Mediplast.
4. Leave in place for three days. (If it falls off, replace it)
5. After three days, remove the dressing, pare off all macerated skin, and reapply the Mediplast.
6. Continue for one month and return for follow up.

### **Instructions for Mediplast with Aldara**

1. Pare down wart with a pumice stone, nail file, or razor blade.
2. Apply a small amount of Aldara to the wart.
3. Cover the wart with Mediplast.
4. Apply a Band-Aid or duct tape over the Mediplast.
5. Pare and reapply everything daily. (Monday through Friday)
6. On weekends, do not remove the bandage. (Saturday and Sunday)
7. Continue for one month and return for follow up.
